

## **Project Manager/Senior Architectural Technician – Sutton Coldfield Office**

*Help us take our clients hospitality and leisure experiences to the next level.*

Hospitality, F&B and leisure design experts, Harrison, are evolving into a true 360° experience provider. That means we're developing a dynamic design team, based in Sutton Coldfield, creating fully integrated, engaging brand worlds in a fast-paced and exciting sector.

Our journey has already started – working on exciting new concepts for numerous clients. This is a 'next step' opportunity for a **Project Manager/Technician** –someone who's passionate about hospitality and ambitious to take their career to the next level.

The position is for a qualified **Project Manager/Architectural Technician** with a proven track record of delivering successful hospitality projects. You will develop interior design projects from concept through to implementation, across a range of brands and independent operations.

Harrison is an industry leading, creatively driven agency. We are Passionate. Provocative. An independent company obsessed with crafting beautiful, engaging stories which add character and bring brands to life.

Harrison takes pride in creating a warm, nurturing and inclusive working environment with a family feel – coupled with a strong international presence and global clients. The **Project Manager/Technician** will report to a Design Team Leader and work closely with Harrison's Creative Director and our Creative Founder/CEO.

The ideal candidate will have experience of running jobs and demonstrate a good understanding of all stages of the design process.

Responsibilities:

- *To develop and implement Harrison construction standards and related processes to maintain and grow the company's credibility in the technical aspect of our work with the client.*
- *To develop an understanding of Harrison design culture by working with other members of the team and company.*
- *To act as project technician, being principally targeted towards projects which have a particular strategic importance as a new brand or for a new client.*
- *To be responsible, in conjunction with the project designer, for the building design and detailing, local authority negotiation, liaison with other consultants, liaison with client, and overall team accountability in these areas.*
- *To produce CAD drawings as specified by your Team Manager, complying with the company's methods, numbering, and filing system, and to the standards expected of a Senior Technician.*
- *To work, with other team members, on the budgetary control of projects.*
- *To work with other team members in the development of projects from briefing to completion, liaising with the Team Manager (and the Senior Designer where appropriate) agreeing with team members their specific tasks and responsibilities on a project-by-project bases.*
- *To assume the role of site supervising officer on specific projects, varying in accordance with project type. i.e., design led, or build led.*
- *To assist in maintaining and developing existing clients through project specific contact.*
- *To assist in the training and development of Junior Technicians, supervising their work and aiding with skill growth.*
- *Ongoing development of the implementation of CAD products to increase the productivity and efficiency of the practice.*
- *Share skills and knowledge company wide.*

**Requirements:**

- A minimum of 5 years professional experience in hospitality design
- Excellent presentation, conceptual and visualising skills
- Proficient in **AutoCAD**
- On site experience
- Ability to work efficiently in a fast-paced environment to tight deadlines
- Fluent in written and spoken English
- Strong and confident client communication skills

Harrison are an award winning design and architecture practice, based in Birmingham, London, Dallas and Dubai. We work across a wide range of clients, in a variety of sectors including: restaurants, pubs, bars, casual dining, nightclubs, casinos, hotels and mixed leisure. We will provide the very best training and development, offer very challenging, rewarding and varied career opportunities and a competitive salary.
